## About me

I am in my third semester out of four at the IT-Högskolan's Frontend Developer training and soon it will be time for me to start my second and last internship. I am looking for an internship where I can grow and develop in my new professional role as a developer. The internship starts in January 2024. I would be happy to take a call and tell you more about myself!

---

## Work Experience

- Aug 2023 - Okt 2023  
**Front End-Developer (Internship)**  
All Aboard  
  
At All Aboard I worked on migrating and refactoring code from one framework to another. I had the opportunity to immerse myself in a number of different technologies and frameworks such as Javascript, HTML, CSS, Svelte, Preact and Choo.
- Nov 2020 - Dec 2020  
**Digital Analyst (Internship)**  
Cure Media  
  
Here I worked with setting up measurement plans, event tracking in Google Tag Manager & Google Analytics, conversion tracking, Dashboards in Google Data Studio, sets of new properties in Google Analytics and import HubSpot data into Google Sheets.
- Aug 2019 - Jun 2020  
**Marketing Automation Specialist**  
Telia (Halebop)  
  
At Halebop's marketing department, I worked a lot with a Marketing Automation tool where I created flows for sending SMS in order to communicate information and promotional offers. I also worked in the tools Google Analytics and Google Data Studio.
